Polymer foams is a new force among new materials. Through different foaming process, the polymer is endowed with new excellent properties. Polymer foams play a key role in different vertical applications due to their unique properties such as lightweight, shock absorption, noise reduction, heat insulation and filtration.

Industrial foundation

South China, where Shenzhen is located, is one of the regions with the most concentrated distribution of the whole industrial chain of foaming materials in China. Both upstream raw materials and equipment enterprises, as well as material production and processing enterprises have a very ideal base and quality.

market demand

City city of one belt, one road, Shenzhen, is the core of the world super city group in Guangdong, Hong Kong and Macau. It is one of the most important and most important external windows of the total economic volume and the fastest growth. Here, electronic information, advanced equipment, new materials, new energy, energy conservation and environmental protection, medical health and other emerging industries are highly intensive. These industries are also the most widely used fields of foaming materials.

THE BOOMING
FOAMS MARKET
IN ASIA

EXHIBITION INTRODUCTION

Interfoam China is a professional exhibition for the whole foam industry chain, and is an international event that cannot be missed by the professionals from foam industry all around the world. Interfoam China focuses on the displays of the latest foam products and equipment, new technologies, new trends, new applications and so on, and spares no efforts to build a professional platform integrating trade, brand display as well as academic exchange for both upstream and downstream of the foam industry and its application enterprises, enabling the sustainable development of the industry!

VIRTUAL EXPO

Virtual Expo cannot replace the "face to face" core value of offline exhibition. The core value of Virtual Expo is obtaining clues and connections, satisfying light requirements, efficiently selecting global suppliers and customers, etc. The digital social experience of Virtual Expo can assist offline exhibition to achieve more valuable "face to face".

EXHIBITION SCOPE

- ◆ Polymer Foams and Products
- ◆ Metal Foams and Products
- ◆ Other Foams and Products
- ◆ Raw Materials
- ◆ Foaming Agents (physical foaming agent, chemical foaming agent) and Foaming auxiliary
- ◆ Foaming Equipment, Cutting Equipment, Auxiliary Equipment, Testing Equipment, etc.
- ◆ Recycling Equipment and Technology
- ◆ Environmental Protection Equipment
- ◆ Adhesives and Sealants
- ◆ Films and Tapes
- ◆ Professional Associations, Scientific Research Institutions, Media, etc.

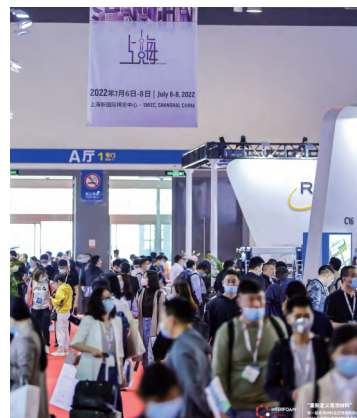

PROFESSIONAL VISITORS

- ◆ Foam Manufacturing and Processing Enterprises
- ◆ Foams Vertical Application Industries: Automotive, Rail Traffic, Aerospace, Packaging, Sports & Leisure, Furniture, Household Supplies, Security, Health-care, Electronic Equipment, Building Materials, HVAC, Electrical Appliances, Cold Chain & Logistics, Industry, Energy, Shipping, Daily Necessities, Communication Devices, Office Facilities, Military Supplies, Others
- ◆ Professional Associations, Scientific Research Institutions,

WISHES FROM VISITORS

Through visiting this exhibition, I learned a lot of knowledge and broadened my horizon. In particular, I benefited a lot from listening to the forum of "Redefine Foams". The speakers are all professionals in the foam industry. I hope this forum can continue in Interfoam.

Peng Gao

The exhibition site is very good, Interfoam brings together many types of foam materials, and I also saw many famous enterprises in the field of foam industry. The exhibition builds a good communication platform for us, so we get to know some high quality business partners for future cooperation. The forum also adds a highlight to this exhibition. We hope the organizer can bring us more quality exhibitors, rich content and more all-round service when we attend the next Interfoam Expo.

Tianbi Su
Michelin China

Foam materials promote the rapid development of new energy power batteries, which can alleviate the problems such as battery expansion, thermal runaway and sealing in battery packs. Interfoam Expo has gathered a number of foam material and equipment suppliers, to build a good platform for us. Hope the organizer will bring more foam material information and advanced technology next time.

Pengli Wang
Contemporary Amperex Technology

Interfoam showcases the whole industry chain of foam materials, creating an integrated platform for technology, trade and academic exchanges, making a great contribution to the sustainable development of the foam industry! Through this platform, we have meet some business partners that we can cooperate with in the future. I hope that in the next Interfoam exhibition, the organizer can bring more high-quality exhibitors, rich resources and more all-round service experience!
